Mr. Drew Colliatie  
Ms. Caroline Ingram  
Committee on Science, Space and Technology  
2321 Rayburn House Office Building, Room 394  
Washington, D.C. 20515-6301

Drew and Caroline,

Thank you for calling last week. Please know that there are no documents or communications related to "the sensitive nature of data stored on Secretary Clinton's private server," security breaches, the National Institute of Standards and Technology, or the Federal Information Security Act. As I am sure you are aware, *Platte River Networks* only began hosting the Secretary's email after she had left office. Also, please understand that *Platte River Networks* has fully cooperated with multiple government agencies at great expense and with risk to their clients' confidentiality.

Respectfully,

Kenneth F. Eichner,  
Counsel for *Platte River Networks*

cc: Honorable Eddie Bernice Johnson, Ranking Minority Member
